Product Change Notification

PCN Publish Date: 05/10/2006

PCN#: 249

Change Title: Product End of Life (EOL)

Products Affected: FX325B: 3.2mm X 2.5mm X 0.8mm, Resin Sealed SMD crystal
FX425A: 4.0mm X 2.5mm X 0.8mm, Resin Sealed SMD crystal

Description of Change to the Customer: In an effort to streamline our crystal product line, Fox Electronics will be discontinuing the above products.

Recommended substitutions:

| Discontinued Product | Recommended Substitution |
|----------------------|-----------------------------------------------------------------------------------------------------------|
| FX325B | FX325BS http://www.foxonline.com/pdfs/fx325bs.pdf |
| FX425A | FX425B http://www.foxonline.com/pdfs/fx425B.pdf |

The seal method for the recommended substitutions is seam seal.

The most significant difference is the package height for both products is 0.1mm less (due to changing from resin seal to seam seal).

Also, the chamfered pad for the FX425B is now pad #2 instead of pad #1

(Note: We recommend a sample be evaluated in all applications before making a substitution.)

Schedule of Change: A last time buy date is scheduled for Sept. 29, 2006.
A last time ship date is scheduled for Dec. 29, 2006.

Customer Impact and Response: We sincerely hope this product discontinuance will have minimal impact on our customers. If you have any questions or need assistance in determining a suitable substitution, please email Fox Technical Support at www.foxonline.com/email.htm or call 239-693-0099.
