

# Product Change Notification

**PCN Publish Date:** 01/24/2007

**PCN#:** 260

**Change Title:** FSRLF part marking / FSMLF part marking

**Products Affected:** FSRLF and FSMLF

**Description of Change to the Customer:** FSRLF previously marked FSR12.5L and FSR6.0L will now be marked FSR12.5 and FSR6. The FSMLF previously marked FSM12.5L and FSM6.0L will now be marked FSM12.5 and FSM6. This marking change is being implemented to eliminate conflicting interpretations of the part marking ID. There is no change to the Form, Fit, Function of the FSRLF or FSMLF product families.

Model#	Pre-Conversion Markings	Post-Conversion Marking
FSRLF	FSR12.5L and FSR6L	FSR12.5 and FSR6
FSMLF	FSM12.5L and FSM6L	FSM12.5 and FSM6

**Schedule of Change:** Change is effective immediately. Due to inventory replenishment rates, there will be a transition period where both product markings are shipped until existing inventories are depleted.

**Customer Impact and Response:** It is our intent to minimize any confusion this part marking change will impose on our customers. Customers will see minor changes in the physical product marking; the electrical functionality of both markings remain unaffected and existing specification remain applicable. If you feel this change will affect your business systems and application, or have any questions, please contact Fox Technical Support at [www.foxonline.com/email.htm](http://www.foxonline.com/email.htm) or call 239-693-0099.
