Product Change Notification

PCN Publish Date: 02/13/2009

PCN#: 321

Change Title: Product Process Change

Products Affected: FTE series OCXO (Euro Package)

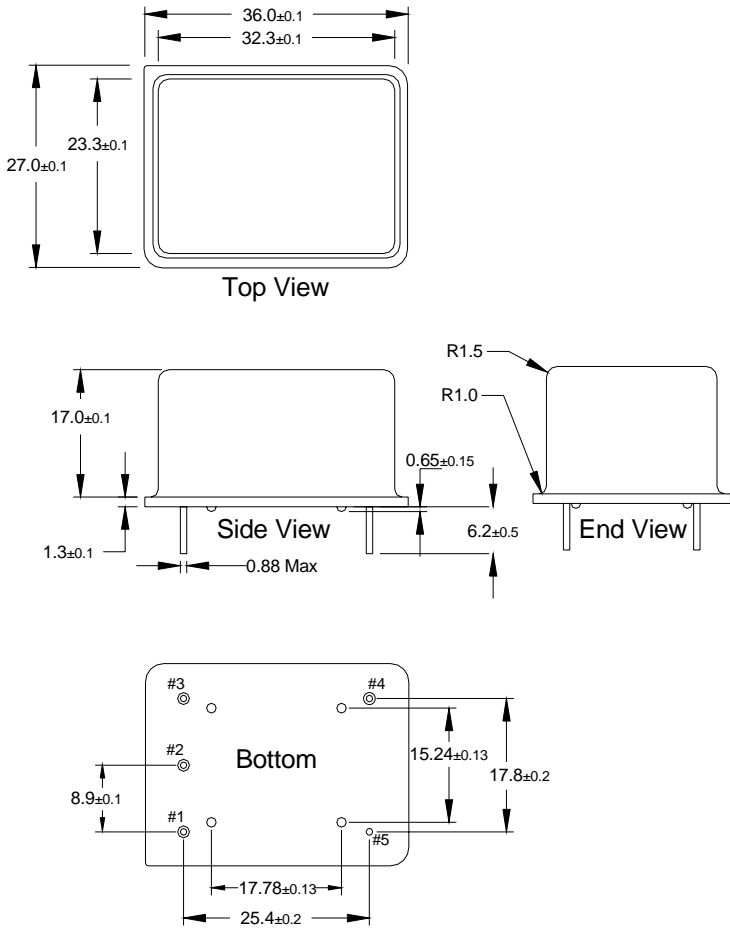

Description of Change to the Customer: As part of our ongoing effort to improve production and increase reliability, we are changing the seal method for all FTE Series parts from solder seal to resistance weld.

This sealing change results in slight visual variations from the solder seal package; however, form, fit, and function are not affected. A drawing showing the two packages is attached on the following page.

Schedule of Change: Change is effective immediately.
Solder seal product will be supported until inventories are depleted.

Customer Impact and Response: This process change should have minimal impact on our customers. If you have any questions, please email Fox Technical Support at www.foxonline.com/email.htm or call 239-693-0099.
