Statement of MSL and Shelf-life 08/01/2018

All Fox ceramic packaged oscillators and crystals are hermetically sealed. The JEDECJ-STD-020D document, concerning Moisture Sensitivity Levels, does not apply to these products.

The shelf-life for solderability of Fox devices is guaranteed, subject to the liability provisions of the [Fox Warranty Statement](#), to be two years when storage conditions are maintained at 20±10°C and the Relative Humidity between 30% and 60%. These conditions do not apply to packaging.

- **Packaging means**, *the shipping containers and labels, including the label applied to the side of the reel. The cover tape, cover tape seal and the carrier tape are included in the definition of packaging.*
